The Philippine Consulate General welcomes the lifting of the security travel advisory on Ninoy Aquino International Airport (NAIA) by the U.S. Homeland Security effective 09 August 2019.

Through concerted actions, the Government of the Philippines civil aviation security and airport authorities have made significant strides in upgrading airport security operations to international standards.

We are encouraged by this positive development so that passengers may enjoy a safe and secure passage at NAIA.

We look forward to more sustained efforts and improvements with a view to extending world-class service to the Filipino public and international visitors alike. END
